LIST OF CONTENTS

Vol. 18, *No.* 1

Short Note
A. M. Th. Beenakkers, H. Chino and J. H. Law — 1 — Lipophorin nomenclature

Christa Bürgin and Beatrice Lanzrein — 3 — Stage-dependent biosynthesis of methyl farnesoate and juvenile hormone III and metabolism of juvenile hormone III in embryos of the cockroach, *Nauphoeta cinerea*

Masaaki Ashida and Hideya Yoshida — 11 — Limited proteolysis of prophenoloxidase during activation by microbial products in insect plasma and effect of phenoloxidase on electrophoretic mobilities of plasma proteins

S. N. Thompson and R. W.-K. Lee — 21 — NMR studies on gluconeogenesis and metabolism of [^{13}C]2-pyruvate in *Manduca sexta*

Jacek R. Wiśniewski, Czesław Wawrzeńczyk, Glenn D. Prestwich and Marian Kochman — 29 — Juvenile hormone binding proteins from the epidermis of *Galleria mellonella*

W. J. A. van Marrewijk, A. Th. M. van Den Broek and A. M. Th. Beenakkers — 37 — Isolation and partial characterization of three forms of glycogen phosphorylase from fat body of *Locusta migratoria*

M. E. Hogan, M. W. Schulz, M. Slaytor, R. T. Czolij and R. W. O'Brien — 45 — Components of termite and protozoal cellulases from the lower termite *Coptotermes lacteus* Froggatt

Krishnappa Venkatesh, Catherine L. Crawford and R. Michael Roe — 53 — Characterization and the developmental role of plasma juvenile hormone esterase in the adult cabbage looper, *Trichoplusia ni*

John P. Williams, John R. Sauer, Richard C. Essenberg, John A. Bantle and P. Larry Claypool — 63 — Protein phosphatase activity in tick salivary glands: calcium-dependent inhibition

J. F. Andersen, R. D. Plattner and D. Weisleder — 71 — Metabolic transformations of cucurbitacins by *Diabrotica virgifera virgifera* LeConte and *D. undecimpunctata howardi* Barber

G. L. Orr, J. W. D. Gole, H. J. Notman and R. G. H. Downer — 79 — The regulation of basal and dopamine-sensitive adenylate cyclase by salts of monovalent cations in brain of the American cockroach, *Periplaneta americana* L.

Ma Luo and Robert P. Bodnaryk — 87 — High affinity ($Ca^{2+} + Mg^{2+}$)-ATPase in adult brain synaptosomes of the bertha armyworm, *Mamestra configurata* Wlk.

D. De Clerck, H. Diederik, G. Paesen and A. De Loof — 93 — Identification and quantification of C21 and C19 steroids in the haemolymph of *Leptinotarsa decemlineata*, a phytophagous insect

Jan K. Teller — 101 — Purification and some properties of glutamate dehydrogenase from the mealworm fat body

J. E. Baker — 107 — Purification of an α-amylase inhibitor from wheat, *Triticum aestivum*, and its interaction with amylases from the rice weevil, *Sitophilus oryzae* (*Coleoptera: Curculionidae*)

Bernhard Surholt, Thomas K. F. Schulz, Jutta Goldberg, Dick J. Van der Horst and Ad M. Th. Beenakkers — 117 — Lipophorin conversions during flight of the death's-head hawkmoth *Acherontia atropos*

Vol. 18, *No.* 2

Moshe Asencot and Yaacov Lensky — 127 — The effect of soluble sugars in stored royal jelly on the differentiation of female honeybee (*Apis mellifera* L.) larvae to queens

M. T. Cheeseman and C. Gillott — 135 — Identification and partial characterization of the major secretory protein of the long hyaline gland in the male grasshopper, *Melanoplus sanguinipes*

N. A. HALL	145	Peptidases in *Drosophila melanogaster*—II. The variation of peptidase activities during development
N. A. HALL	157	Peptidases in *Drosophila melanogaster*—III. The regulation of leucine aminopeptidase P and leucine aminopeptidase G
RUBEN LOZANO, MALCOLM J. THOMPSON, JAMES A. SVOBODA and WILLIAM R. LUSBY	163	Isolation of acidic and conjugated ecdysteroid fractions from *Manduca sexta* pupae
T. TAMURA and S. SAKATE✠	169	Isolation and characterization of fibroin mRNAs from the saturniid silkworms, *Antheraea yamamai*, *Antheraea pernyi* and *Philosamia cynthia ricini*
APOLLO H. VAZ, GARY J. BLOMQUIST and RONALD C. REITZ	177	Characterization of the fatty acyl elongation reactions involved in hydrocarbon biosynthesis in the housefly, *Musca domestica* L.
S. PAUL BAINBRIDGE and MARY BOWNES	185	Ecdysteroid titers during *Drosophila* metamorphosis
DANIEL W. BEAN, PAUL D. SHIRK and VICTOR J. BROOKES	199	Characterization of yolk proteins from the eggs of the Indian meal moth, *Plodia interpunctella*
GERMAIN J. P. FERNANDO-WARNAKULASURIYA, KOZO TSUCHIDA and MICHAEL A. WELLS	211	Effect of dietary lipid content on lipid transport and storage during larval development of *Manduca sexta*
GOMATHY VISWANATHAN and J. M. NORONHA	215	Ribonucleotide reductase levels, deoxyribonucleotide pools and nucleic acid patterns during *Dysdercus koenigii* embryogenesis
MARK F. FELDLAUFER, JAMES A. SVOBODA, MALCOLM J. THOMPSON and KENNETH R. WILZER	219	Fate of maternally-acquired ecdysteroids in unfertilized eggs of *Manduca sexta*

Vol. 18, *No.* 3

LAWRENCE I. GILBERT	I	Maxwell Festschrift—*Insect Biochemistry*
KRYSTYNA GRZELAK, PIERRE COUBLE, ANNIE GAREL, BARBARA KLUDKIEWICZ and HICHAM ALROUZ	223	Low molecular weight silk proteins in *Galleria mellonella*
DEBORAH A. KIMBRELL, EDWARD BERGER, DAVID S. KING, WILLIAM J. WOLFGANG and JAMES W. FRISTROM	229	Cuticle protein gene expression during the third instar of *Drosophila melanogaster*
P. J. SKELLY and A. J. HOWELLS	237	The cuticle proteins of *Lucilia cuprina*: stage specificity and immunological relatedness
ISABEL BERMUDEZ, ROGER P. BOTHAM and DAVID J. BEADLE	249	High- and low-affinity uptake of amino acid transmitters in cultured neurones and muscle cells of the cockroach, *Periplaneta americana*
KOZO TSUCHIDA and MICHAEL A. WELLS	263	Digestion, absorption, transport and storage of fat during the last larval stadium of *Manduca sexta*. Changes in the role of lipophorin in the delivery of dietary lipid to the fat body
GEORGE A. INGRAM and DAVID H. MOLYNEUX	269	Sugar specificities of anti-human ABO(H) blood group erythrocyte agglutinins (lectins) and haemolytic activity in the haemolymph and gut extracts of three *Glossina* species
S. P. FOSTER and W. L. ROELOFS	281	Pink bollworm sex pheromone biosynthesis from oleic acid
J. CARDOEN, C. VAN COILLIE, J. GEYSEN and A. DE LOOF	287	Yolk polypeptide synthesis in the fat body of *Sarcophaga bullata*: localization, hormonal induction and cell-free translation

Toshiro Aigaki, Minoru Osanai and Hiroko Kasuga	295	Arginine carboxypeptidase activity in the male reproductive glands of the silkworm, *Bombyx mori*
Tina Trenczek and Ingrid Faye	299	Synthesis of immune proteins in primary cultures of fat body from *Hyalophora cecropia*
Georges Stepien, Michel Renaud, Isabelle Savre and Roger Durand	313	Juvenile hormone *increases* mitochondrial activities in *Drosophila* cells

Vol. 18, *No.* 4

Kenneth Söderhäll, Wiebke Rögener, Irene Söderhäll, Russell P. Newton and Norman A. Ratcliffe	323	The properties and purification of a *Blaberus craniifer* plasma protein which enhances the activation of haemocyte prophenoloxidase by a β 1,3-glucan
K. V. Lazar and U. V. K. Mohamed	331	The high titre of free amino acids in the larval haemolymph of the moth, *Spodoptera mauritia* Boisduval
Wayne L. Rickoll and Samuel Galewsky	337	20-Hydroxyecdysone increases the metabolic labeling of extracellular glycoproteins of *Drosophila* S3 cells
D. Jeffery, P. D. J. Weitzman and G. G. Lunt	347	An improved assay for 4-aminobutyrate: 2-oxoglutarate aminotransferase
Uli Müller, Zofia Wojna, Bernd König and Hanns-Christof Spatz	351	Thiophosphorylation of the regulatory subunit of the cAMP-dependent protein kinase from *Drosophila* brain tissue
P. S. Whitton, R. H. C. Strang and R. A. Nicholson	359	The effect of taurine on the efflux of calcium from locust mitochondria
L. H. Teo and J. P. Woodring	363	The digestive protease and lipase in the house cricket *Acheta domesticus*
Demetrios G. Mappouras and Emmanuel G. Fragoulis	369	Purification and characterization of L-DOPA decarboxylase from the white puparia of *Ceratitis capitata*
Sunita M. de Sousa, K. S. Krishnan and U. W. Kenkare	377	Phospholipid methyltransferase from *Drosophila melanogaster*: purification and properties
Minh-Tam B. Davis and Stephen G. Miller	389	Expression of a testis β-tubulin gene in *Heliothis virescens* during spermatogenesis
Rolf König, John H. Nordin, Caroline H. Gochoco and Joseph G. Kunkel	395	Studies on ligand recognition by vitellogenin receptors in follicle membrane preparations of the German cockroach, *Blattella germanica*
Subba Reddy Palli and Michael Locke	405	The synthesis of hemolymph proteins by the larval fat body of an insect *Calpodes ethlius* (Lepidoptera: Hesperiidae)

Vol. 18, *No.* 5

Svend Olav Andersen	415	Characterization of proteins from pharate adult wing cuticle of the migratory locust, *Locusta migratoria*
Walter R. Terra, Clélia Ferreira and Eloi S. Garcia	423	Origin, distribution, properties and functions of the major *Rhodnius prolixus* midgut hydrolases
D. Baghdassarian-Chalaye, D. Toru, J. C. Baehr and M. Pierre	435	Protein kinases and their endogenous substrates in the fat body of female *Rhodnius prolixus*
S. N. Chaubey and R. S. Bhatt	443	Changes in the levels of nucleic acid, protein, total free amino acid and glycogen, and activity of acid phosphatase in the eggs, during normal embryonic development of the rice moth, *Corcyra cephalonica*, Stainton (Lepidoptera: Pyralidae)
Victor N. Konji, Norah K. Olembo and David J. Pearson	449	Proline synthesis in the fat body of the tsetse fly *Glossina morsitans*, and its stimulation by isocitrate

Fred. C. Baker, Leslie W. Tsai, Carol C. Reuter and David A. Schooley	453	The absence of significant levels of the known juvenile hormones and related compounds in the milkweed bug, *Oncopeltus fasciatus*
Rolf Graf, Hans Binz and Hans Briegel	463	Monoclonal antibodies as probes for *Aedes aegypti* trypsin
Jerome C. Regier and James R. Wong	471	Assembly of silkmoth chorion proteins: *in vivo* patterns of disulfide bond formation
Fabienne Petit and Gérard Devauchelle	483	Heavy polyribosomes extraction from lepidopteran cells: *Choristoneura fumiferana*
Vassilis Souliotis, Meropi Patrinou-Georgoula, Vasso Zongza and Giorgos J. Dimitriadis	485	Cuticle proteins during the development of *Dacus oleae*
Y. Hayakawa, A. P. Jahagirdar and R. G. H. Downer	493	Effect of taurine on serum trehalase activity in the American cockroach, *Periplaneta americana*
Seppo Turunen	499	Uptake of dietary lipids: a novel pathway in *Pieris brassicae*
Rafael Cantera and Mats Carlberg	507	Serotonin levels in the central nervous system of the blowfly *Calliphora erythrocephala* during postembryonic development

Vol. 18, *No.* 6

Gary B. Quistad, Wayne S. Skinner and David A. Schooley	511	Venoms of social hymenoptera—toxicity to the lepidopteran, *Manduca sexta*
John C. Lucchesi and Jerry E. Manning	515	A block in the pentose shunt and in a purine degradation pathway interact to produce lethality in *Drosophila melanogaster*
Clélia Ferreira, Alberto F. Ribeiro, Eloi S. Garcia and Walter R. Terra	521	Digestive enzymes trapped between and associated with the double plasma membranes of *Rhodnius prolixus* posterior midgut cells
Tetsuo Asakura, Yasushi Kawaguchi, Makoto Demura and Minoru Osanai	531	^{13}C and ^{31}P NMR studies on sugar metabolism in *Bombyx mori* and *Philosamia cynthia ricini* larvae
Martine Arpagaus, Didier Fournier and Jean-Pierre Toutant	539	Analysis of acetylcholinesterase molecular forms during the development of *Drosophila melanogaster*. Evidence for the existence of an amphiphilic monomer
H. Mitschulat and R. Willmund	551	Dynamic properties of neural cAMP-dependent protein kinase in *Drosophila*
Peter-Frank Röseler and Ingeborg Röseler	557	Influence of juvenile hormone on fat body metabolism in ovariolectomized queens of the bumblebee, *Bombus terrestris*
Alexander S. Raikhel and Sarojini G. Bose	565	Properties of the mosquito yolk protein: a study using monoclonal antibodies
C. J. Pallen and J. E. Steele	577	A putative role for calmodulin in corpus cardiacum stimulated trehalose synthesis in fat body of the American cockroach (*Periplaneta americana*)
J. E. Steele, G. E. McDougall and R. Shadwick	585	Trehalose efflux from cockroach fat body *in vitro*: paradoxical effects of the corpus cardiacum and methylxanthines
G. E. McDougall and J. E. Steele	591	Free fatty acids as a source of energy for trehalose synthesis in the fat body of the American cockroach (*Periplaneta americana*)
A. E. Douglas	599	Sulphate utilization in an aphid symbiosis
Mertxe de Renobales, Dennis R. Nelson, Marilyn E. Mackay, Anthony C. Zamboni and Gary J. Blomquist	607	Dynamics of hydrocarbon biosynthesis and transport to the cuticle during pupal and early adult development in the cabbage looper *Trichoplusia ni* (Lepidoptera: Noctuidae)
David F. Grant and Fumio Matsumura	615	Glutathione S-transferase-1 in *Aedes aegypti* larvae: purification and properties
Miklos Sass	623	20-Hydroxyecdysone induced phosphorylation of fat body proteins in *Mamestra brassicae*

Vol. 18, *No.* 7

M. LONDERSHAUSEN, V. KAMMANN, M. SPINDLER-BARTH, K.-D. SPINDLER and H. THOMAS — 631 — Chitin synthesis in insect cell lines

MICHAEL F. MINNICK and KEMET D. SPENCE — 637 — Tissue site and modification of a bacteria-induced coagulation protein from *Manduca sexta*

K. UCHIMA, J. P. HARVEY, E. M. OMI and Y. TANADA — 645 — Binding sites on the midgut cell membrane for the synergistic factor of a granulosis virus of the armyworm (*Pseudaletia unipuncta*)

VASSO ZONGZA and GIORGOS J. DIMITRIADIS — 651 — Vitellogenesis in the insect *Dacus oleae*. Isolation and characterization of yolk protein mRNA

JOHN K. KOEPPE, RICHARD C. RAYNE, MARY D. SHEARIN, DEBORAH J. CARVER, ERIC A. WHITSEL and ROBERT C. VOGLER — 661 — Synthesis and secretion of a precursor hemolymph juvenile hormone-binding protein in the adult female cockroach *Leucophaea maderae*

RICHARD C. RAYNE and JOHN K. KOEPPE — 667 — Relationship of hemolymph juvenile hormone-binding protein to lipophorin in *Leucophaea maderae*

FRANCISCO J. SILVA and JOSÉ LUIS MÉNSUA — 675 — Effect of some tryptophan metabolites on the biosynthesis of pteridines in the mutant red Malpighian tubules of *Drosophila melanogaster*

LIRIM SHEMSHEDINI and THOMAS G. WILSON — 681 — A high affinity, high molecular weight juvenile hormone binding protein in the hemolymph of *Drosophila melanogaster*

ELAINE H. RICHARDS, NORMAN A. RATCLIFFE and LOTHAR RENWRANTZ — 691 — Isolation and characterization of a serum lectin from the giant stick insect *Extatosoma tiaratum*

GAIL TERZI, JAMES W. TRUMAN and STUART E. REYNOLDS — 701 — Purification and characterization of eclosion hormone from the moth, *Manduca sexta*

C. ROULAND, J. RENOUX and F. PETEK — 709 — Purification and properties of two xylanases from *Macrotermes mülleri* (Termitidae, Macrotermitinae) and its symbiotic fungus *Termitomyces* sp.

MARK DOWTON, IVAN R. KENNEDY and MEI CHI WANG — 717 — Localization of glutamine synthetase in fleshfly flight muscle

G. SOMMÉ-MARTIN, J. COLARDEAU and R. LAFONT — 729 — Conversion of ecdysone and 20-hydroxyecdysone into 3-dehydro-ecdysteroids is a major pathway in third instar *Drosophila melanogaster* larvae

G. SOMMÉ-MARTIN, J. COLARDEAU and R. LAFONT — 735 — Metabolism and biosynthesis of ecdysteroids in the *Drosophila* development nutant ecd1

YEHIA A. I. ABDEL-AAL and BRUCE D. HAMMOCK — 743 — Kinetics of binding and hydrolysis of juvenile hormone II in the hemolymph of *Trichoplusia ni* (Hübner)

Vol. 18, *No.* 8

SVEND OLAV ANDERSEN — 751 — Comparison between cuticular proteins from two locust species, *Locusta migratoria* and *Schistocerca gregaria*

GÖRAN BIRGERSSON and ANDERS LEUFVÉN — 761 — The influence of host tree response to *Ips typographus* and fungal attack on production of semiochemicals

TOHRU YOSHIMURA, HOMARE TABATA, MIYAKO NISHIO, EIJIRO IDE, RYOHEI YAMAOKA and KEIZO HAYASHIYA — 771 — L-Cysteine lyase of the webbing clothes moth, *Tineola bisselliella*

A. J. SLINGER and R. E. ISAAC — 779 — Acyl-CoA:ecdysone acyltransferase activity from the ovary of *P. americana*

A. K. RAINA and G. GÄDE — 785 — Insect peptide nomenclature

RICHARD L. LINDROTH — 789 — Hydrolysis of phenolic glycosides by midgut β-glucosidases in *Papilio glaucus* subspecies

L. E. King and S. S. Tobe	793	The identification of an enantioselective JH III binding protein from the haemolymph of the cockroach, *Diploptera punctata*
Kusumam Joseph and T. G. Baby	807	Polyamine changes during insect development: a comparison between the housefly *Musca domestica* and the plant bug *Dysdercus koenigii*
Luc P. Belzunces, Jean-Jacques Lenoir-Rousseaux and Michel Bounias	811	Properties of acetylcholinesterase from *Apis mellifera* heads
Wil J. A. Van Marrewijk, Aloys Th. M. Van den Broek, Pierre N. E. De Graan and Ad M. Th. Beenakkers	821	Formation of partially phosphorylated glycogen phosphorylase in the fat body of the migratory locust
V. L. Souliotis, M. Patrinou-Georgoula, V. Zongza and G. J. Dimitriadis	829	Isolation and characterization of mRNAs coding for the third instar larvae cuticle proteins of *Dacus oleae*
Michael Marzini and Klaus Scheller	839	*In vitro* transcription of calliphorin genes in isolated nuclei of fat body from larvae of *Calliphora vicina*
Peter Deak, Peter Zavorszky and Peter Maroy	847	Moulting hormone regulates its receptor level in *Drosophila melanogaster*
Mark J. Birnbaum, Thomas M. Whelan and Lawrence I. Gilbert	853	Temporal alterations in polyamine content and ornithine decarboxylase activity during the larval–pupal development of *Manduca sexta*
Sami Ahmad and Ronald S. Pardini	861	Evidence for the presence of glutathione peroxidase activity toward an organic hydroperoxide in larvae of the cabbage looper moth, *Trichoplusia ni*
R. Wennauer and K. H. Hoffmann	867	Studies on the *de novo* synthesis of juvenile hormone III and methyl farnesoate by isolated corpora allata of adult female *Gryllus bimaculatus*
